

PetroleumMitigationAgent

Ready to Use – Petroleum Mitigation Agent

- Instantly Encapsulates and Emulsifies Hydrocarbons, Fats, Oils and Greases (FOG)
 - Immediately Suppresses VOC Vapors
 - Provides non-slip surface for responders
 - Leaves a Clean and Oil Free Surface With No Residue
 - Clean Water Act Best Management Practice (BMP)/Best Conventional Technology (BCT)
 - Works on Virtually any Surface – Including Water
 - Provides Fast and Easy Absorption with Bio-Matrix Gold Organic Peat or other quality absorbent
 - Greatly Improves Hydrocarbon Degradation
 - Environmental Agency Approved – Used by Responders, Haz-Mat Teams, Industry and Military
-

Application: **No Dilution Necessary – READY TO USE**

1. Apply to release area beginning at circumference using sprayer, pump or directly from this container.
 2. Brush vigorously – slight foaming will appear indicating encapsulation is complete.
 3. Remove contaminate with vacuum, or apply absorbent to solidify, sweep and pick up.
 4. Dispose of all contamination according to local regulations.
-
